

2014 Annual CSI&SSE A-Share Index Review

A-Share Market Review

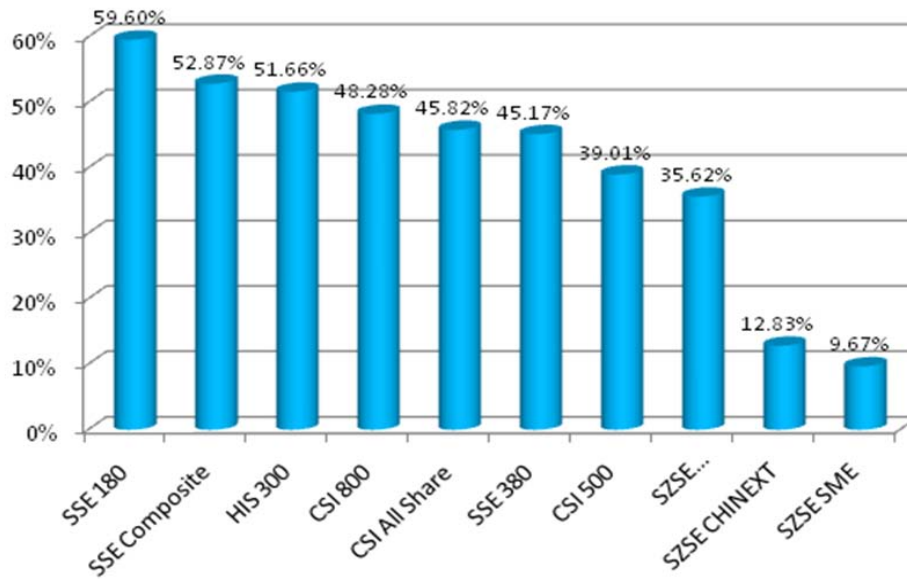

From 2014, stocks from SME and ChiNext board show relatively active movements, and the CHINext Index indicates significant gain. Up to July, the market fell back and all the indices showed similar trend. Soon afterwards, under the leadership of large blue-chip stocks, the market dramatically rebound upwards. Throughout the year, the large cap index rose ahead of the rest of the market indices.

Performance of Size Indices

In the first half of 2014, the overall market was in average and sluggish performance. Since July, the market sharply increased, large blue chip indices outperformed the rest of the market key indexes, SSE 180's growth rate ranked the top with 59.60% increase.

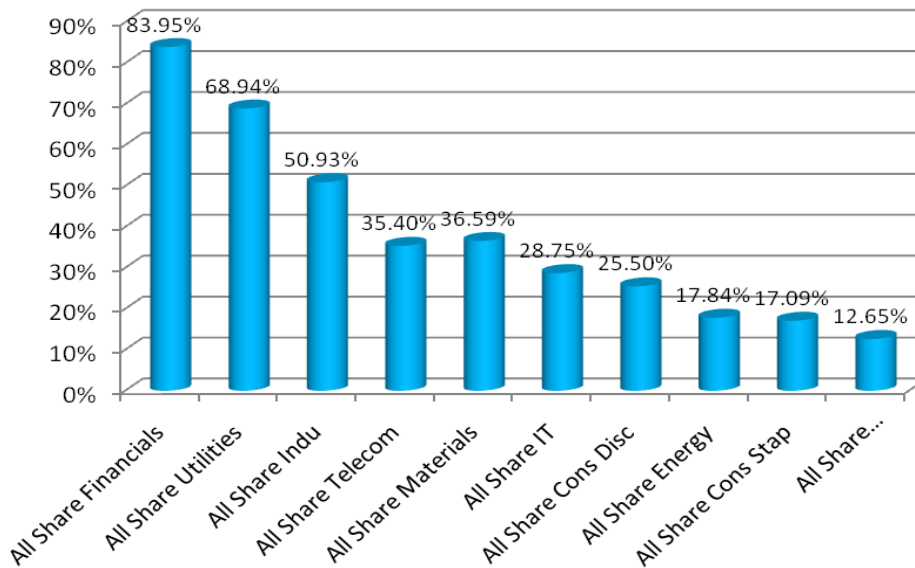

Primary Indices Performance In 2014

Performance of CSI Sector Indices

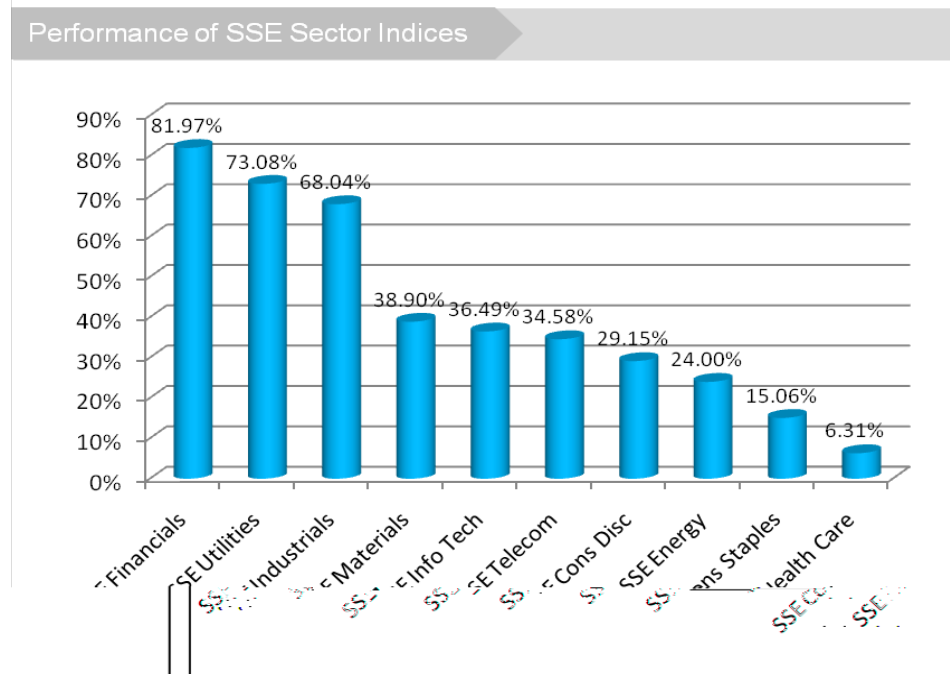

In 2014, the sector indices show significant differentiation, CSI All-Share Financials sector index has the highest growth rate of 83.95%. Banks and diversified financial services subsector indices increase significantly during November. Non-periodic sector has a weaker trend, CSI All-Share Consumer Discretionary sector and Health Care sector index has the lowest growth rate, rose by 17.09% and 12.65% respectively .

Performance of CSI All Share Sector Indices

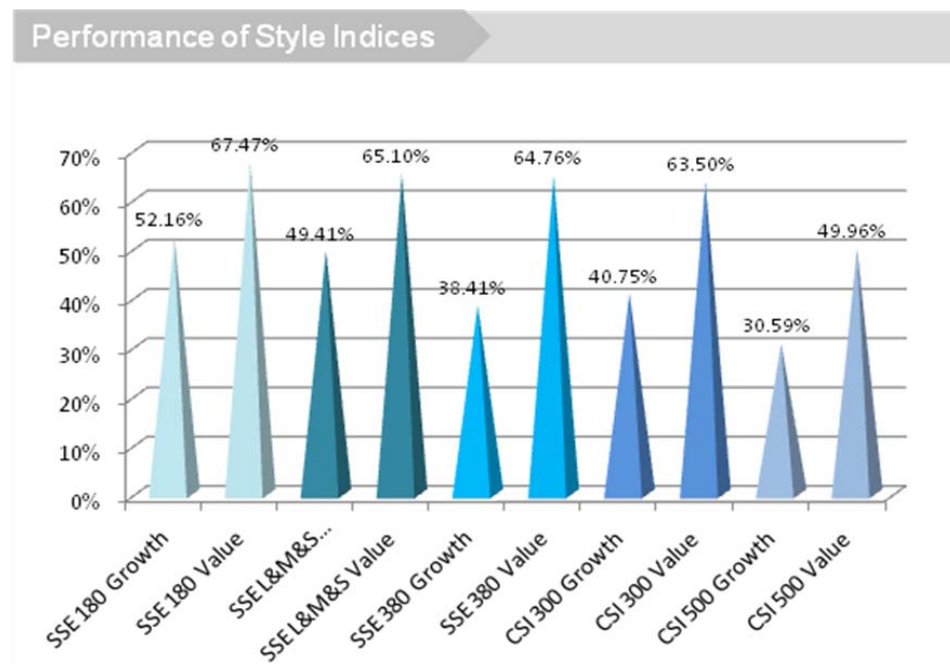

Performance of SSE Sector Indices

Among SSE index series, Financials Sector Index has the highest growth rate of 81.97%. On the other hand, SSE Health Care Sector Index has the lowest growth rate of 6.31%.

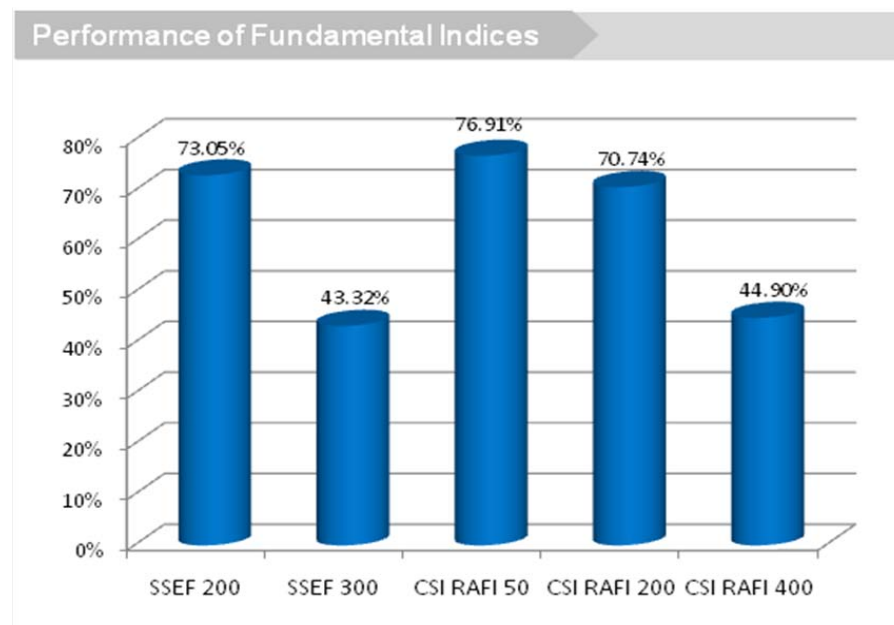

Performance of Style Indices

In 2014, all 6 the value-style indices performed better than growth-styles indices, out of which the large blue chip style indices performed slightly better than small cap style indices.

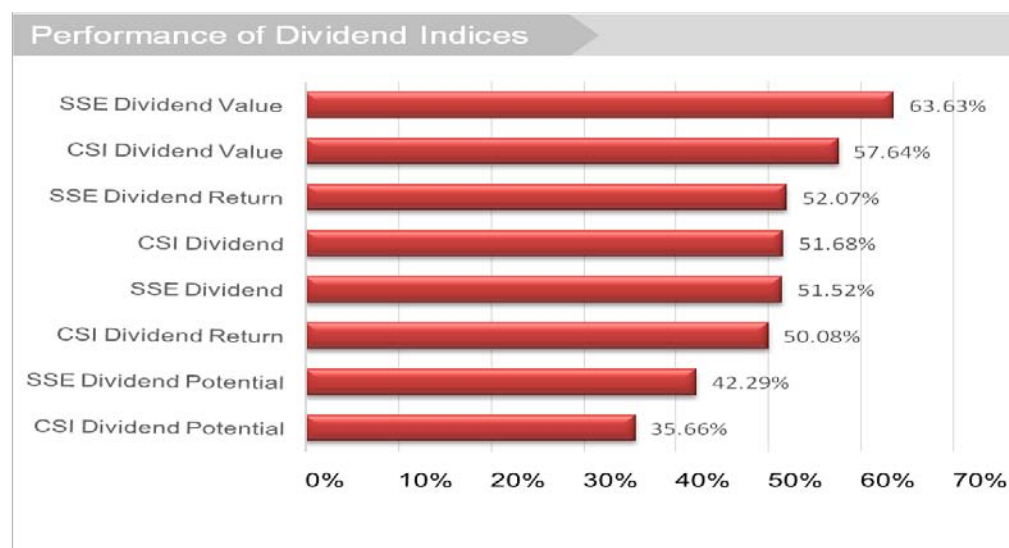

Performance of Fundamental Indices

In 2014, the fundamental indices with large cap stocks as constituents such as SSE F200, CSI RAFI 50 and CSI RAFI 200 have better growth performance rate. Especially CSI RAFI 50 indices, the growth rate reaches a peak of 76.91%.

Performance of Dividend Indices

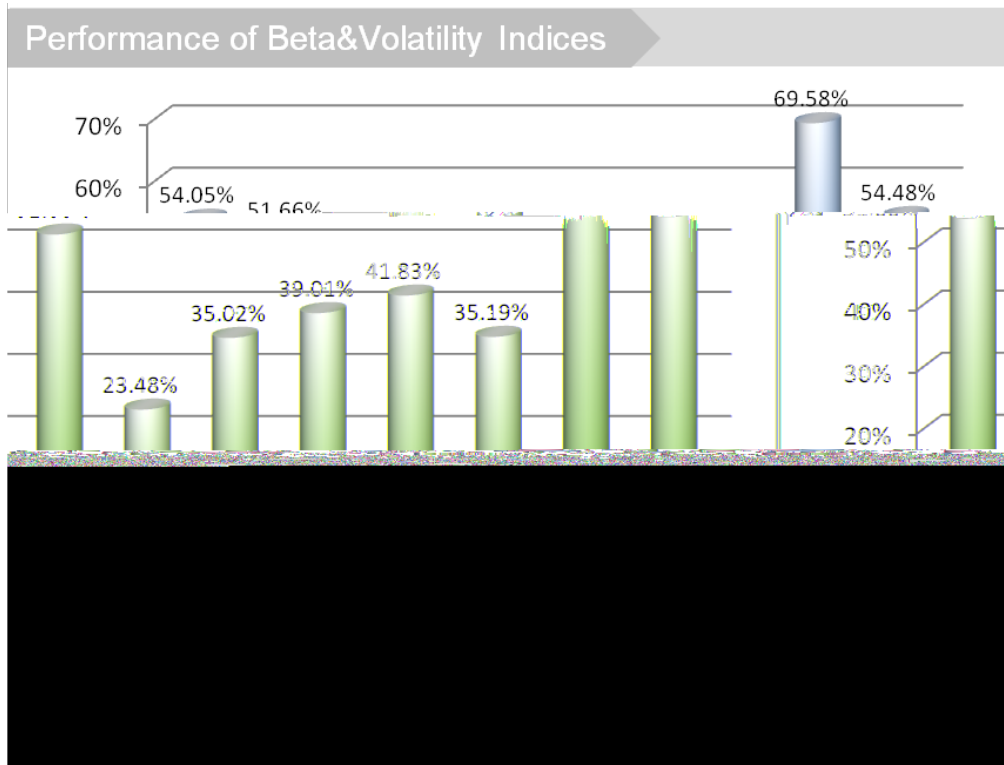

During 2014, apart from CSI Dividend Potential Index and SSE Dividend Potential Index which have the relatively lowest growth rate of the overall dividend index series. The rest of the dividend indices has similar growth rate. SSE Dividend Value Index has the highest growth rate of 63.63%.

Performance of Beta and Volatility indices

Influenced by the upward market in 2014, the return of CSI300 High & Low Beta Index return has distinct features, and forms contrast with CSI 300 Index. However, CSI 500 Low Beta Index's growth rate is higher than CSI 500 and CSI 500 High Beta Indices.

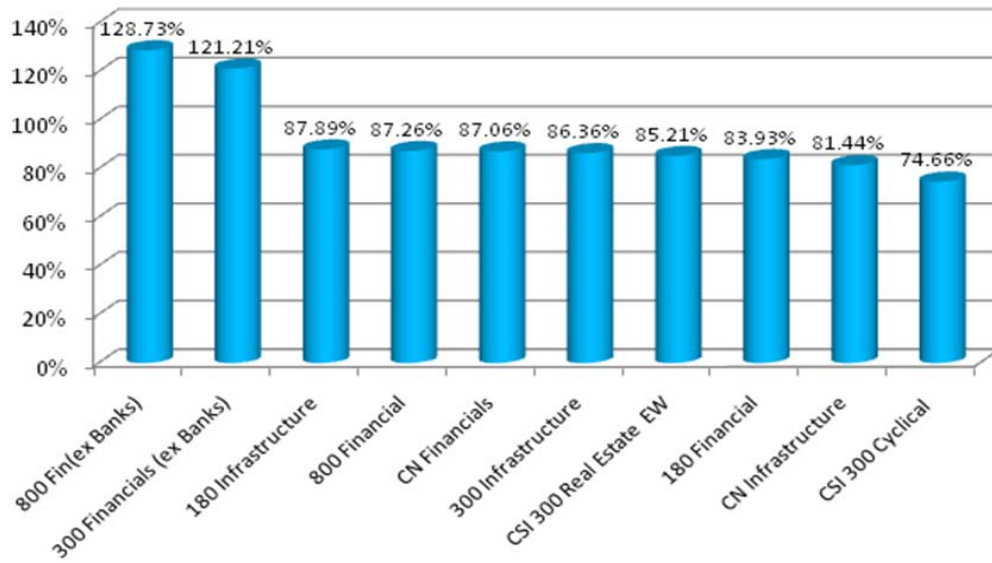

In the second half of 2014, blue chip stocks with low volatility outweigh its previous performances, resulted CSI 300 & CSI 500 (Low) Volatility Index's annual performance exceed its mother index respectively.

Performance of Thematic indices

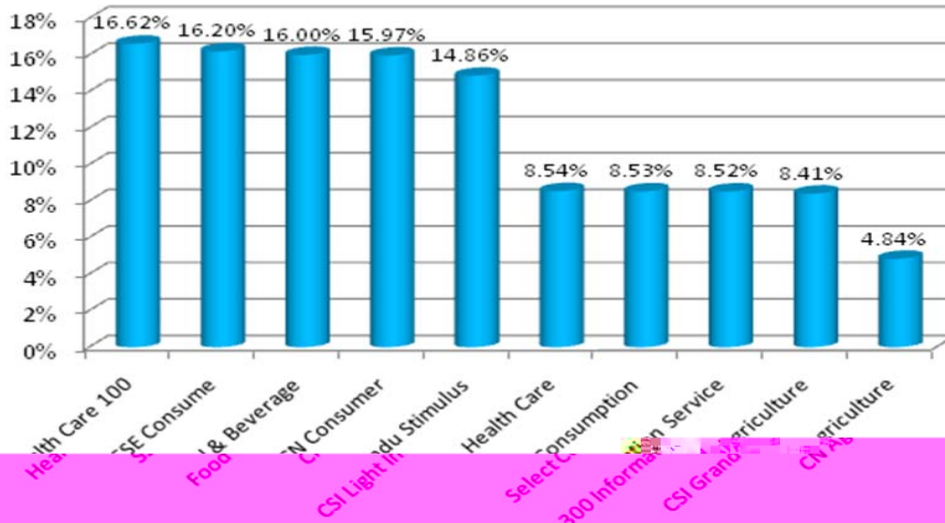

In 2014, subsectors with excellent performances are from financial sector, and is represented by the growth rate of banks, diversified financial services and real estate, real estate sector has the highest growth rate of all subsector. In 2014, there are two thematic indices with growth rate over 100%, 800 Fin and 300 Financials.

Performance of the Top 10 Thematic Indices

Yet, there still are many sector & thematic indices falls behind of the market benchmark, most of these indices concentrated in health care, consumer and agriculture related sectors.

Performance of the last 10 Thematic Indices

APPENDIX: SSE and CSI Indices 2014 Annual Performance
